

前言

1. 写作预测题目来源是什么？预测题目是如何筛选的？

雅思写作预测题库中的题目均来自于真实的雅思考试当中，由教研组老师根据考试回忆整理而成。我们参考了过去几年的雅思写作考试趋势，并对 2025 年可能出现的话题和题型进行了深入分析，从而挑选并整理出这些题目。

2. 写作预测题目该如何使用呢？

在拿到题目后，可以结合自己的学习情况，进行重难点的攻破。其中，小作文可以根据图表类型进行专题复习，结合思路解析进行段落书写练习；大作文按照不同的话题备考，熟悉好各类话题的写作思路和主题词汇，积累表达。

3. 如果参加机考，写作预测题目是否适用呢？

雅思写作纸笔考试和机考的题库内容是一致的，因此机考的同学也可以使用这套题库加强练习。

4. 写作大范围预测与小范围预测的区别是什么？该如何选择呢？

写作大范围预测共有 55 道题，其中小作文 15 道，大作文 40 道；写作小范围预测共有 40 道题，其中小作文 10 道，大作文 30 道。小范围题库中，大作文分为三级重点，优先复习一级重点题目。如果距离考试不到或只有一个月的时间，备考时间紧任务重，可以选择使用小范围题库重点复习。如果在当季参加考试，备考时间充分，可以选择使用大范围题库全面覆盖知识点，不留死角。

5. 写作备考的重点是什么？

结合 2024 年写作考察趋势，对于雅思写作的小作文部分，需要特别关注柱状图、表格、曲线图

和饼图这些常见的图表类型。在大作文部分，应该重点准备社会生活,教育,科技和政府类的题目。在备考过程中，同学们需要深入了解雅思写作的评分标准，掌握写作的关键要点，熟悉真题，并通过学习范文和多做练习来提高自己的写作技巧。只有全面,深入的备考，才能在考试中取得理想的成绩。

媒体类.....	29
城市建设类.....	32
环境保护类.....	34

三级重点

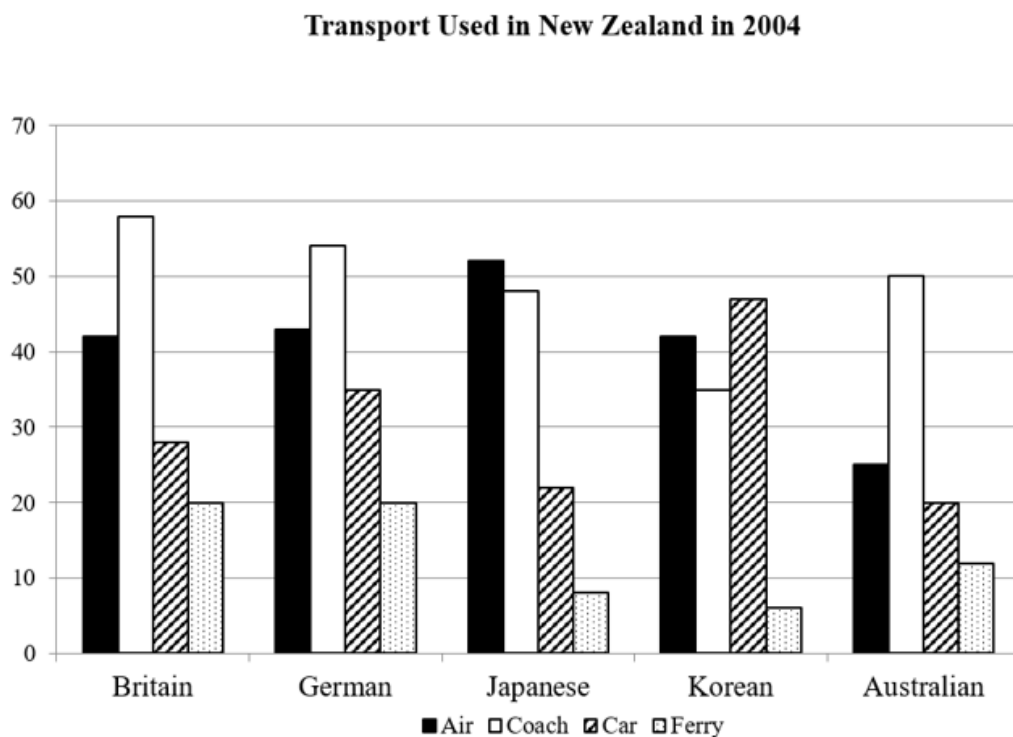

政府类.....	37
传统文化类.....	42

TASK1

柱状图

The chart below shows various transport tourists used within New Zealand in 2004. Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

2004 年新西兰境内游客使用的各种交通工具

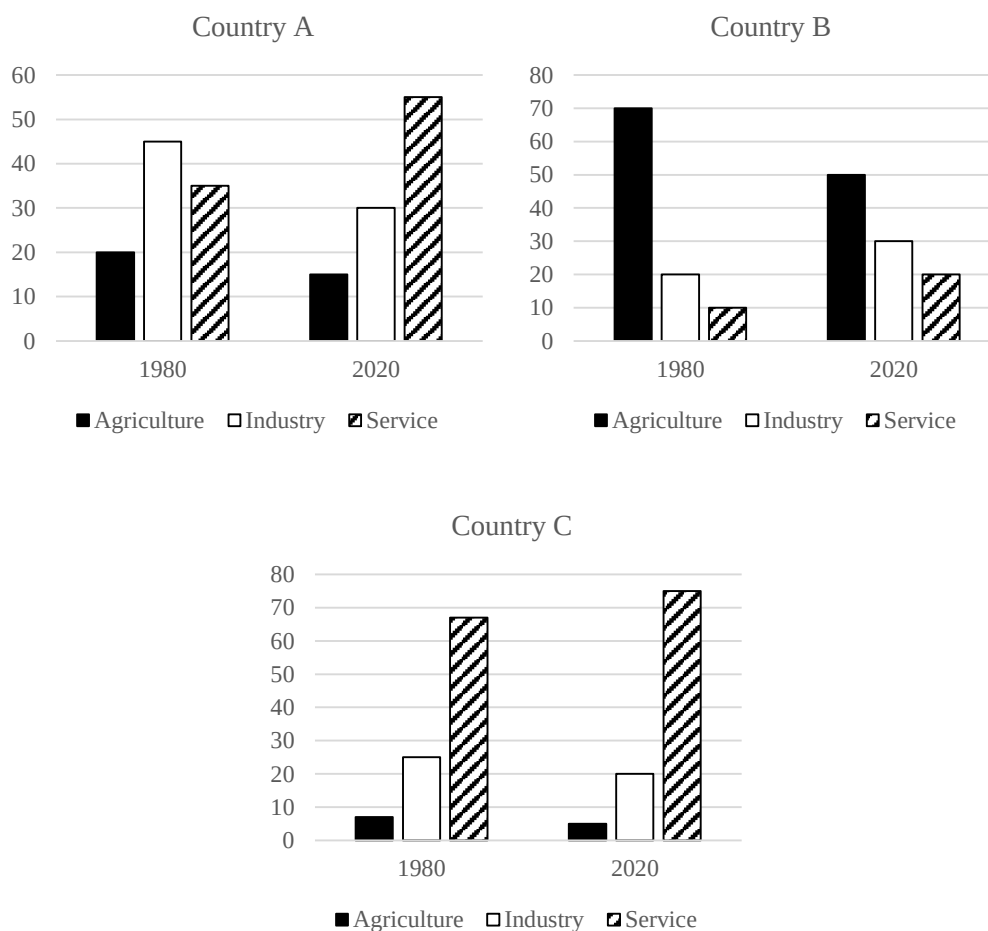

【思路解析】

这张柱状图显示了 2004 年五个国家游客在新西兰使用的交通方式。长途汽车是大多数游客的首选，尤其是澳大利亚游客。日本游客则更偏好乘坐飞机。英国和德国游客的交通模式相似，而韩国游客的汽车使用明显低于其他国家。分析数据时要注意使用准确的比较语言，整体总结趋势时避免推测原因，保持客观。

The charts below show the distribution of employment among agriculture, industries and services in three countries in 1980 and projected distribution in 2020. Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

三国农业、工业和服务业在 1980 年和 2020 年的就业分布。

【思路解析】

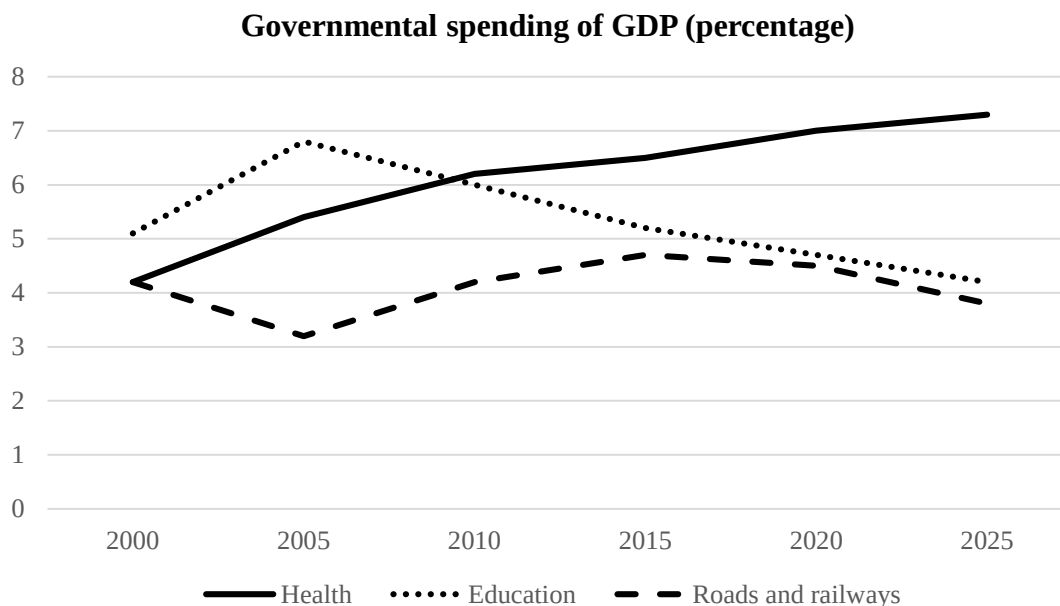

柱状图描述的是三个国家中从事农业，工业和服务业的人数比例的不同。首先要注意的这个图中应该时态的选择，特别是将来时态的表达方式，可以简单的分为三个行业进行描述：农业，工业和服务业。写作时要着重的突出变化的描述，使用相关的衔接词汇进行前后的对比。

曲线图

The chart below shows the percentage of GDP governmental spending on health, education and road constructions between 2000 and 2025.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

2000 年至 2025 年间政府在卫生、教育和道路建设方面的支出占国内生产总值的百分比

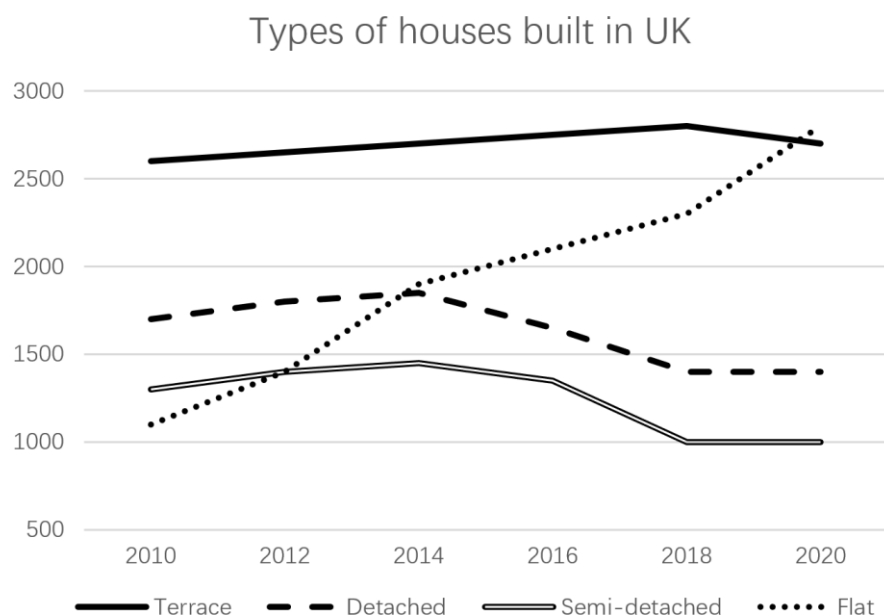

【思路解析】

这是一道动态曲线图，图表描写了政府在健康、教育和道路、铁路建设三个重要公共领域的官方 GDP 支出的变化情况。该题目信息量比较小，内容简单，数据对比变化清晰明了，在主题段落需要指出 2000 到 2025 年中，这三个领域的支出经历了不同程度的变化。时态使用上需要考虑一般现在时态的被动语态代替将来，或者使用将来时态均可。

The bar graphs below show the number of houses built in the UK between 2010 and 2020. Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

英国 2010 年至 2020 年四种房屋的建造数量。

【思路解析】

本图表描述了 2010 年至 2020 年英国四种房屋建造数量的变化，在描述时注意数据的变化趋势。本题目内容需要注意将来时态，可使用一般现在的被动语态代替将来时态。

表格

The table below shows the transport usage for different reasons in UK.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

英国不同原因的交通使用情况。

The transport usage for different reasons
(miles per week)

Types of transports	Purpose				Total
	Work	Shop	Social	Other	
Car/taxi	201	144	166	112	623
Bike/motor	5	8	5	5	23
Public transport	17	15	17	19	68

【思路解析】

这张表格展示了英国不同交通方式的使用情况及其目的。写作时应概述表格内容，突出主要特征如私家车/出租车使用最多，总里程远超其他两种。注意对比不同目的的使用情况，如工作用途的私家车/出租车使用最频繁。自行车/摩托车使用较少，公共交通适中且各用途分布均衡。使用具体数据说明差异，如私家车/出租车总里程是公共交通的 9 倍多。

The table shows the percentage of employers in various sectors having difficulty in employment between 2003 and 2004.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

2003 年至 2004 年期间各个部门就业困难的雇主的百分比

Percentage of staff shortage in four sectors (%)						
sectors	Difficulty in finding skilled workers		Difficulty in finding unskilled workers		Difficulty in finding technical and managerial staff	
	2003	2004	2003	2004	2003	2004
Manufacture	45	51	26	28	8	6
Building	42	45	21	23	14	10
Commerce	47	41	22	19	2	0
Services	41	45	20	29	5	2

【思路解析】

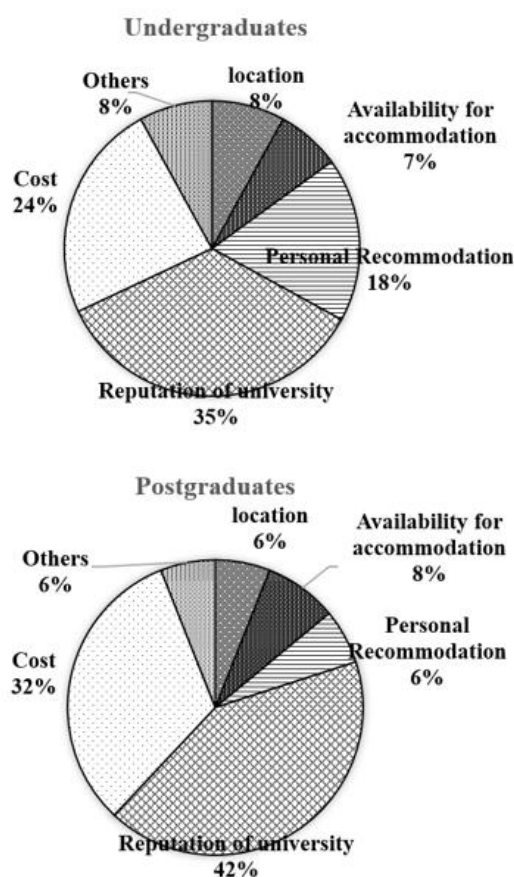

这表格展示 2003 至 2004 年四个行业招聘困难的百分比。写作时应概述内容，突出招聘熟练工人最困难的特征。对比行业差异，如制造业困难最大，商业相对较小。注意时间变化，多数行业 2004 年困难略增。使用具体数据，如制造业 2004 年招熟练工人困难达 51%。

饼状图

The graphs show the reasons for undergraduates and postgraduates to choose to study at Parker university.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

本科生和研究生选择在帕克大学学习的原因。

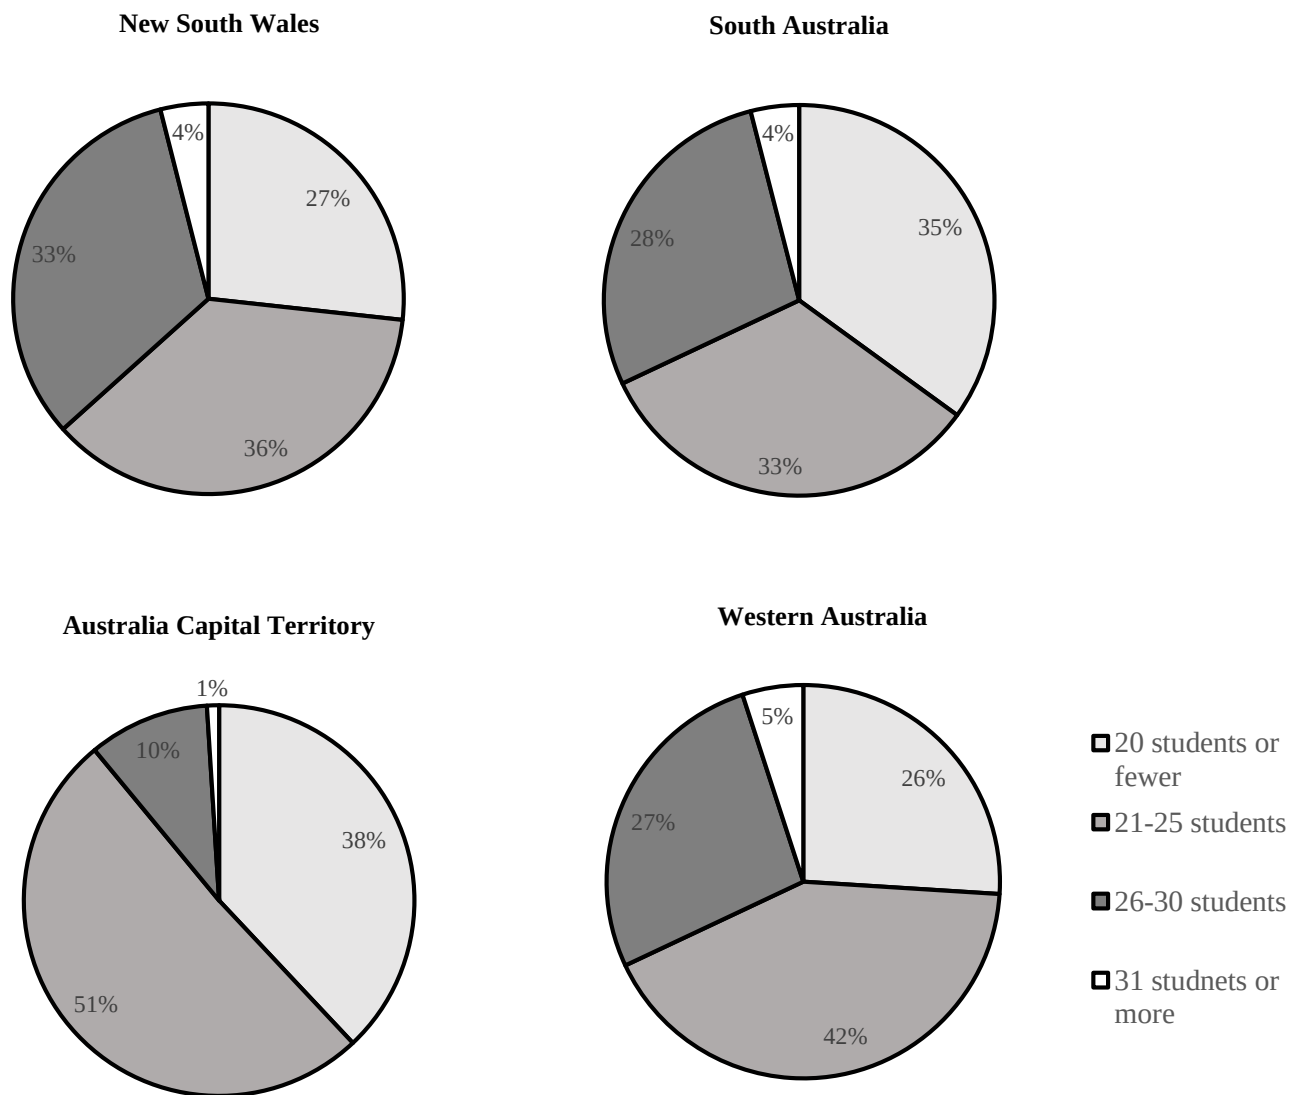

【思路解析】

这两个饼图展示了本科生和研究生选择 Parker 大学的原因。写作时应概述图表内容，突出主要特征如两组学生都最看重大学声誉，但研究生比例更高。注意对比差异，如研究生更关注成本，本科生更重视个人住宿。其他因素如位置和住宿可用性比重较小。

The pie charts show the class size in primary schools in four states in Australia in 2010. Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

2010 年澳大利亚四个州小学的班级规模

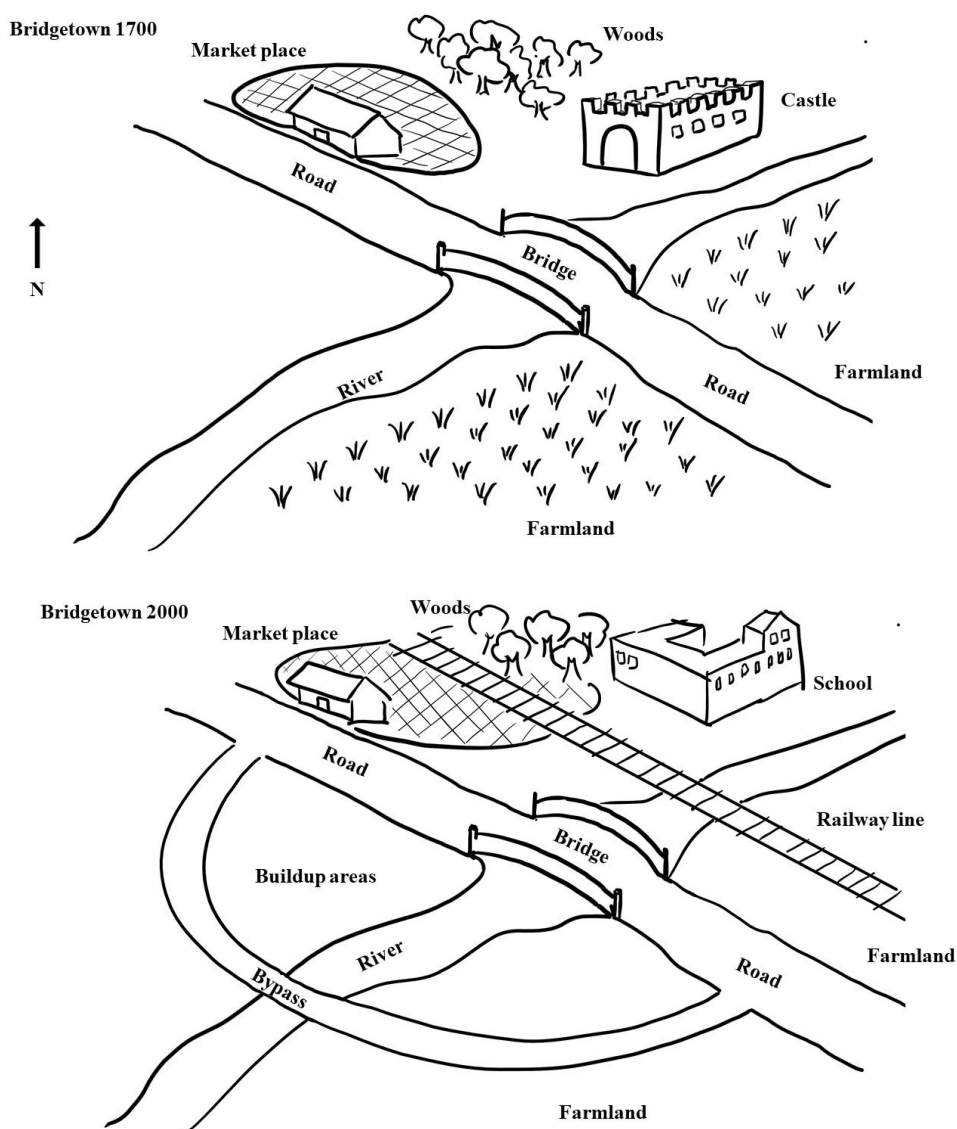

【思路解析】

本题属于静态多饼图。在写作时，务必多观察内容之间的关联性和对比性。本题涉及的数据描述比较多，描述时需要突出题目的主要特征。

地图

The diagrams below shows the changes of a town called Bridgetown in 1700 and 2000. Summarise the information by selecting and reporting the main features and make comparisons where relevant.

小镇 1700 年至 2000 年的变化。

【思路解析】

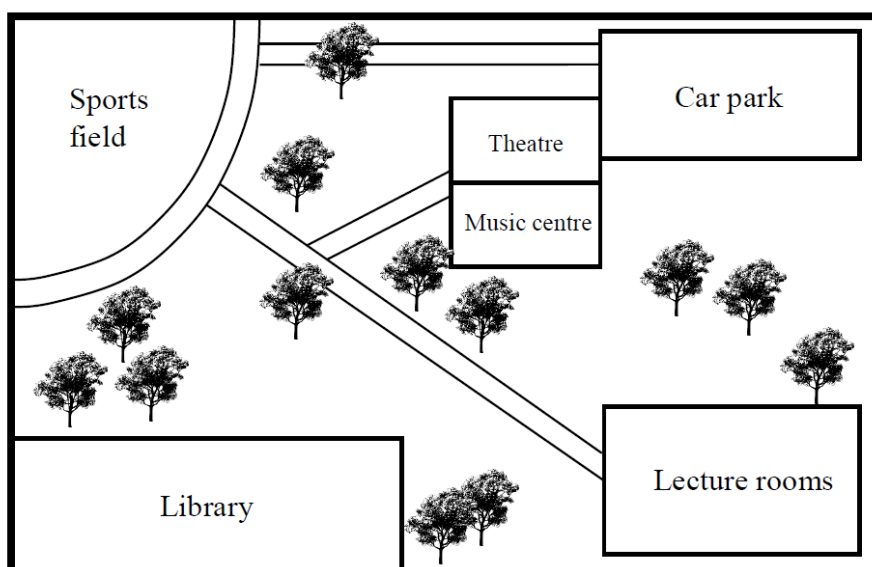

该题目的出题历史已经有近十年之久。算是一个雅思考试的老题之一。难度适中，因为图形有立体感，并且方位并不是正南正北，所以写作的时候建议在图上做好标注。另外，第二张图形的时态可以尝试使用完成时代表已经发生的改变。

The diagram below shows the development of one college campus from 1975 to 2002, and the projected building in 2020.

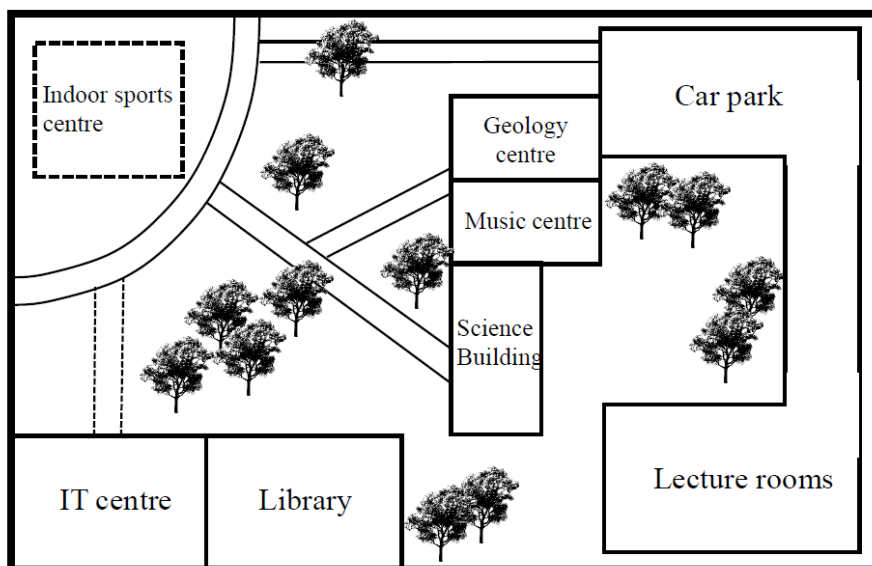

Summarise the information by selecting and reporting the main features and make comparisons where relevant.

一间大学校园的变化。

1975

2010

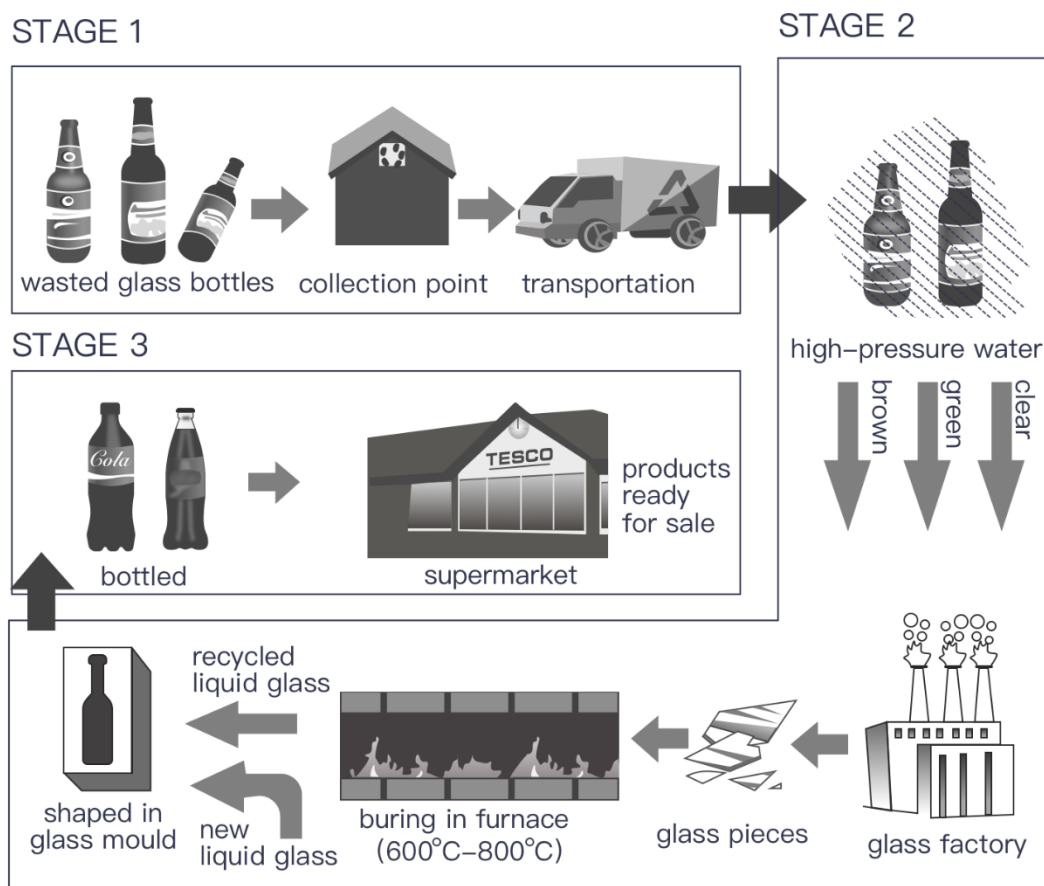

【思路解析】

此题是关于一间大学校园的变化。年份为 1975， 2002， 2020，使用过去时态和将来预测。写作主线可以按照时间分别描述，也可以以变化为主线来分段。

流程图

The diagram below shows the recycling process of wasted glass bottles. Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

废旧玻璃瓶回收过程

【思路解析】

本文是一篇流程图，这幅流程图描述了玻璃瓶的回收利用过程。这幅图一共有三个阶段，故在主体段可以分为三段，同时，也可以看出整个过程有 12 个步骤，可以将这 12 个步骤进行合理分段。

TASK 2

一级重点

社会生活类

Some people feel that manufacturers and supermarkets should be responsible for reducing the amount of packaging of goods, while others argue that customers should avoid buying goods with a lot of packaging.

Discuss both these views and give your own opinion.

对比双方看法并给出自己的观点：一些人认为制造商和超市应该负责减少商品包装，而其他人认为消费者应该避免购买包装过多的商品。

观点一：

1. 产业主导效应 (Industrial leading effect) e.g. 包装设计优化(packaging optimization), 环保材料应用 (eco-friendly materials), 供应链改造(supply chain transformation)
2. 规模经济效益 (Economies of scale) e.g. 集中处理方案(centralized solutions), 标准化流程 (standardized procedures), 成本分摊机制(cost-sharing mechanisms)
3. 政策执行主体 (Policy enforcement entities) e.g. 行业规范制定(industry standard setting), 环保认证制度(eco-certification systems), 违规处罚机制(penalty mechanisms)

观点二：

1. 市场导向作用 (Market-oriented influence) e.g. 绿色消费需求(green consumption demand), 品牌声誉影响(brand reputation impact), 购买行为示范效应(purchasing behavior demonstration)
2. 终端决策权力 (End-user decision power) e.g. 产品选择自由(product selection freedom), 环保意识体现(environmental awareness reflection), 个人责任践行(individual responsibility practice)
3. 使用环节控制 (Usage stage control) e.g. 二次利用创意(reuse creativity), 分类处置能力(waste sorting capability), 资源节约习惯(resource conservation habits)

***Dangerous sports should be banned, while others believe people should have the freedom to choose activities.
Discuss both views and give your opinion.***

对比双方看法并给出自己的观点：有人认为运动应该被禁止，而其他人认为应该有选择活动的自由。

观点一：

1. 社会安全责任 (Social safety responsibility) e.g. 紧急救援成本(emergency rescue costs), 公共医疗负担(public healthcare burden), 法律纠纷风险(legal dispute risks)
2. 道德伦理考量 (Moral and ethical considerations) e.g. 青少年模仿风险(youth imitation risks), 家庭稳定性破坏(family stability disruption), 生命价值冲突(life value conflicts)
3. 可持续发展影响 (Sustainable development impact) e.g. 生态环境破坏(ecological damage), 文化遗产损耗(cultural heritage loss), 旅游安全限制(tourism safety restrictions)

观点二：

1. 个人权利保障 (Individual rights protection) e.g. 自我决定权(self-determination right), 冒险精神培养(adventurous spirit cultivation), 个性表达自由(personality expression freedom)
2. 体育产业价值 (Sports industry value) e.g. 极限运动经济(extreme sports economy), 赛事商业价值(event commercial value), 装备技术革新(equipment innovation)
3. 心理建设功能 (Psychological development function) e.g. 抗压能力训练(stress resistance training), 自信心提升(self-confidence enhancement), 创伤后成长(post-traumatic growth)

***Nowadays, instead of locally sourced produce, many supermarkets sell a variety of foods imported from countries all over the world.
Do the advantages of this development outweigh the disadvantages?***

超市售卖更多来自世界各地的进口食品的利弊。

优势：

1. 消费选择多样化 (Diversified consumer choices) e.g. 热带水果全年供应(year-round tropical fruit supply), 地域特色美食体验(regional specialty tasting), 节日食材全球化(globalized festival ingredients)
2. 农业技术交流 (Agricultural technology exchange) e.g. 冷链物流创新(cold chain innovation), 跨境种植合作(cross-border cultivation), 食品检测标准互认(mutual recognition of food safety standards)
3. 经济协同效应 (Economic synergy effects) e.g. 贸易逆差平衡(trade deficit balancing), 港口经济发展(port economy growth), 跨境电商促进(cross-border e-commerce promotion)

弊端:

1. 生态安全隐患 (Ecological security risks) e.g. 外来物种入侵(invasive species), 碳足迹增加(carbon footprint increase), 包装污染扩散(packaging pollution spread)
2. 本土产业冲击 (Local industry impact) e.g. 农户竞争力下降(farmer competitiveness decline), 传统耕作技艺流失(traditional farming loss), 粮食自给率降低(food self-sufficiency reduction)
3. 文化认同弱化 (Cultural identity weakening) e.g. 饮食传统断裂(dietary tradition disruption), 季节性饮食消失(seasonal eating disappearance), 地方餐饮同质化(local cuisine homogenization)

There is no need to attend a live performance (e.g. a play or concert) because seeing it at home on television is better.

To what extent do you agree or disagree?

是否同意没有必要去现场看喜剧或音乐会。

不同意:

1. 多维感官体验缺失 (Multi-sensory experience loss) e.g. 空间声场沉浸感(acoustic immersion), 舞台灯光感染力(stage lighting dynamics), 群体情绪共振(crowd emotional synergy)

2. 艺术互动性消亡 (Artistic interactivity disappearance) e.g. 即兴创作可能性(improvisation possibilities), 演员观众能量交换(performer-audience energy exchange), 临场反应独特性(live reaction uniqueness)
3. 文化消费异化 (Cultural consumption alienation) e.g. 数字观看碎片化(digital viewing fragmentation), 艺术价值商品化(art commercialization), 仪式感消解(ritual significance loss)

同意：

1. 技术增强体验 (Technology-enhanced experience) e.g. 8K 超高清直播(8K UHD streaming), 多视角切换系统(multi-angle switching), VR 全景声效(VR spatial audio)
2. 普惠性提升 (Accessibility improvement) e.g. 残障人士适配(disability-friendly access), 偏远地区覆盖(remote area coverage), 时间成本节约(time efficiency)
3. 二次创作可能 (Recirculation potential) e.g. 片段重播功能(clip replay), 数字内容再生产(digital remix culture), 跨平台传播机制(cross-platform dissemination)

Some employers are giving increased importance to employing people with good social skills in addition to good qualifications.

Do you agree or disagree that social skills are as important as good qualifications for success in a job?

是否同意社交技能与良好资质对工作成功同等重要。

同意：

1. 团队效能提升 (Team effectiveness enhancement) e.g. 跨部门协作(cross-department collaboration), 冲突调解能力(conflict mediation), 知识共享促进(knowledge sharing facilitation)
2. 客户关系构建 (Client relationship building) e.g. 需求洞察精准化(needs insight accuracy), 信任建立效率(trust-building efficiency), 品牌忠诚度培养(brand loyalty cultivation)

3. 领导力发展基础 (Leadership development foundation) e.g. 员工激励有效性(staff motivation effectiveness), 变革管理能力(change management capability), 组织文化塑造(organizational culture shaping)

不同意:

1. 专业技术门槛 (Professional technical threshold) e.g. 行业资质认证(industry certification), 技术规范掌握(technical specifications mastery), 精密操作要求(precision operation requirements)
2. 成果量化导向 (Result quantification orientation) e.g. KPI 完成度(KPI completion rate), 数据处理效率(data processing efficiency), 研发专利产出(R&D patent output)
3. 人工智能替代趋势 (AI substitution trend) e.g. 情感计算技术(affective computing), 客户服务自动化(customer service automation), 算法决策系统(algorithmic decision systems)

In many countries today, the retirement age from work has been raised. Do the advantages of raising the retirement age from work outweigh the disadvantages?

提高退休年龄的利弊。

优势:

1. 人力资本延续 (Human capital continuity) e.g. 经验传承机制(experience transfer programs), 导师制度优化(mentorship system enhancement), 错峰退休计划(staggered retirement schemes)
2. 社会保障减压 (Social security relief) e.g. 养老金缺口缩减(pension gap reduction), 医保基金可持续性(medical fund sustainability), 代际负担平衡(intergenerational burden balancing)
3. 银发经济激活 (Silver economy activation) e.g. 适老化产业升级(age-friendly industry upgrading), 消费结构优化(consumption structure improvement), 终身学习市场(lifelong learning market)

弊端:

1. 职业倦怠风险 (Occupational burnout risks) e.g. 创新力衰减(innovation capability decline), 数字技能鸿沟(digital skill gap), 生产力曲线下滑(productivity curve drop)
2. 就业市场挤压 (Labor market crowding-out) e.g. 青年晋升阻滞(youth promotion blockage), 岗位流动性降低(job mobility reduction), 结构性失业加剧(structural unemployment)
3. 健康保障挑战 (Health security challenges) e.g. 职业病累积(occupational disease accumulation), 工作适应性差异(job adaptability disparity), 心理健康风险(mental health risks)

***It has become easier and more affordable for people to travel to other countries.
Do you think it is a positive or negative development?***

出国旅行更经济实惠的利弊。

优势：

1. 跨文化理解深化 (Cross-cultural understanding enhancement) e.g. 文化沉浸式体验(cultural immersion experiences), 语言习得加速(language acquisition acceleration), 刻板印象破除(stereotype dissolution)
2. 全球经济融合 (Global economic integration) e.g. 旅游产业链延伸(tourism industry chain extension), 小微企业数字化转型(SME digital transformation), 外汇收入多元化(foreign exchange diversification)
3. 个人发展机遇 (Personal development opportunities) e.g. 全球视野拓展(global perspective expansion), 适应性能力培养(adaptability cultivation), 创新思维激发(innovative thinking stimulation)

弊端：

1. 生态负荷加剧 (Ecological overload intensification) e.g. 碳排放足迹扩大(carbon footprint expansion), 旅游资源过载(tourism resource overload), 生物多样性威胁(biodiversity threats)

2. 文化同质化风险 (Cultural homogenization risks) e.g. 本土特色商业化(local characteristic commercialization), 传统仪式表演化(traditional ritual performativization), 建筑风格标准化 (architectural style standardization)
3. 社会矛盾诱发 (Social conflict induction) e.g. 物价失衡(inflation imbalance), 居住空间挤压(living space crowding), 文化冲突事件(cultural clash incidents)

Parents should encourage children to spend less time studying and more time doing physical activities.
To what extent do you agree or disagree?

是否同意孩子应该减少学习时间并增加体育活动。

同意：

1. 身心发展平衡 (Holistic development balance) e.g. 认知疲劳缓解(cognitive fatigue reduction), 骨骼肌肉发育(bone-muscle development), 压力荷尔蒙调节(stress hormone regulation)
2. 社交技能培养 (Social skill cultivation) e.g. 团队协作实践(teamwork practice), 规则意识建立(rule awareness formation), 竞争精神塑造(competitive spirit development)
3. 终身习惯奠基 (Lifelong habit foundation) e.g. 运动神经元强化(motor neuron enhancement), 健康生活认知(healthy lifestyle cognition), 多巴胺分泌机制(dopamine secretion mechanism)

不同意：

1. 学业竞争力需求 (Academic competitiveness demand) e.g. 知识经济时代(knowledge economy era), 升学考核体系(academic evaluation system), 技能习得效率(skill acquisition efficiency)
2. 数字时代挑战 (Digital age challenges) e.g. 屏幕时间管理(screen time management), 信息处理能力 (information processing capacity), 网络学习依赖(online learning dependence)
3. 个体差异考量 (Individual difference consideration) e.g. 学习类型多样性(learning style diversity), 特殊才能发展(special talent development), 神经发育特性(neurodevelopmental characteristics)

教育类

In some countries, more and more parents begin to teach their children at home rather than send them to school.

Do the advantages of this trend outweigh the disadvantages?

越来越多的父母开始在家教育孩子的利弊。

优势：

1. 个性化教学实施 (Personalized education implementation) e.g. 学习节奏定制(learning pace customization), 兴趣导向课程(interest-driven curriculum), 跨学科整合教学(interdisciplinary integration)
2. 安全环境保障 (Safety environment assurance) e.g. 校园暴力规避(school violence avoidance), 传染病风险降低(epidemic risk reduction), 心理健康监测(mental health monitoring)
3. 价值观传承强化 (Value transmission enhancement) e.g. 文化传统沉浸(cultural tradition immersion), 伦理道德内化(ethical internalization), 家庭纽带巩固(family bond strengthening)

家庭教育劣势：

1. 社会化进程受阻 (Socialization process impairment) e.g. 同辈互动缺失(peer interaction deprivation), 群体适应能力弱化(group adaptability weakening), 社会角色认知模糊(social role ambiguity)
2. 教育资源局限 (Educational resource constraints) e.g. 专业设备缺乏(specialized equipment shortage), 多语言环境缺失(multilingual environment deficiency), 标准化评估困难(standardized evaluation challenges)
3. 家长系统性压力 (Parental systemic pressure) e.g. 职业发展冲突(career development conflict), 教学能力瓶颈(teaching competency limitations), 长期精力耗损(long-term energy depletion)

Some people think that schools should select their pupils according to their academic ability. Others believe that it is better for young people with different abilities to be educated together. Discuss both these views and give your own opinion.

对比双方看法并给出自己的观点：一些人认为学校应该根据学生的学术能力选择学生，其他人则认为让不同能力的年轻人一起接受教育更好。

观点一：

1. 精准教学实施 (Precision teaching implementation) e.g. 分层教学体系(ability-grouped instruction), 加速学习通道(accelerated learning pathways), 学科深度拓展(subject specialization programs)
2. 资源高效配置 (Resource optimization) e.g. 精英教师匹配(advanced teacher allocation), 科研设施集约化(research facility intensification), 学术竞赛培育(academic competition incubation)
3. 心理发展适配 (Psychological development alignment) e.g. 同辈压力转化(peer pressure redirection), 成就动机培养(achievement motivation cultivation), 挫败感规避(frustration avoidance strategies)

观点二：

1. 社会融合促进 (Social integration facilitation) e.g. 多元协作项目(diverse collaboration projects), 跨能力辅导机制(cross-ability mentoring), 包容性课堂设计(inclusive classroom strategies)
2. 多维能力开发 (Multidimensional competency development) e.g. 领导力情景实践(leadership scenario practice), 情感智力培养(emotional intelligence training), 批判性思维碰撞(critical thinking collisions)
3. 现实世界模拟 (Real-world simulation) e.g. 异质团队挑战(heterogeneous team challenges), 社会角色体验(social role immersion), 问题解决场景多元化(problem-solving scenario diversification)

***Some people believe that teenagers should concentrate on all school subjects equally. Others believe that teenagers should focus on the subjects that they are best at or that they find the most interesting.
Discuss both these views and give your own opinion.***

对比双方看法并给出自己的观点：一些人认为青少年应该平等关注所有学校科目，其他人认为青少年应该专注于他们擅长或感兴趣的学科。

观点一：

1. 认知基础构建 (Cognitive foundation construction) e.g. 通识知识网络(general knowledge networking), 跨学科思维训练(interdisciplinary thinking drills), 基础学力达标机制(basic academic competency certification)
2. 职业探索保障 (Career exploration assurance) e.g. 潜能开发实验(potential development experiments), 职业模拟体验(career simulation experiences), 兴趣发现课程(interest discovery modules)
3. 教育公平维护 (Educational equity preservation) e.g. 资源分配均衡化(resource allocation balancing), 弱势学科保护机制(vulnerable subject protection), 标准化评估体系(standardized evaluation frameworks)

观点二：

1. 学习效能提升 (Learning efficiency enhancement) e.g. 心流状态触发(flow state triggering), 专家型知识建构(expert knowledge structuring), 深度学习时间保障(deep learning time allocation)
2. 竞争优势积累 (Competitive advantage accumulation) e.g. 早期专业认证(early specialization certification), 竞赛成果转化(competition achievement conversion), 个性化履历构建(personalized portfolio development)
3. 内在驱动力强化 (Intrinsic motivation reinforcement) e.g. 自我决定理论应用(self-determination theory application), 成就反馈循环(achievement feedback loops), 学习痛苦指数降低(learning distress index reduction)

***Once children start school, teachers become a more important influence on children's intellectual and social development than parents.
To what extent do you agree or disagree?***

是否同意教师对儿童智力和社会发展的影响比父母重要。

同意：

1. 结构化知识传递 (Structured knowledge transmission) e.g. 课程标准实施(curriculum standard implementation), 认知发展评估(cognitive development evaluation), 教学法专业训练(pedagogical professional training)
2. 社会化系统培养 (Socialization systematic cultivation) e.g. 群体规范内化(group norm internalization), 制度适应训练(institutional adaptation drills), 公民意识塑造(civic awareness formation)
3. 专业干预能力 (Professional intervention capability) e.g. 学习障碍诊断(learning disability diagnosis), 特殊需求支持(special needs support), 发展危机干预(developmental crisis intervention)

不同意:

1. 早期神经塑造 (Early neuroplasticity shaping) e.g. 语言敏感期开发(language sensitivity development), 执行功能奠基(executive function foundation), 依恋模式形成(attachment pattern formation)
2. 价值体系根基 (Value system bedrock) e.g. 道德判断基准(moral judgment benchmarks), 文化身份认同(cultural identity construction), 生活哲学奠基(life philosophy establishment)
3. 终身影响机制 (Lifelong influence mechanisms) e.g. 神经镜像系统(neural mirroring systems), 家庭仪式强化(family ritual reinforcement), 跨代传递效应(intergenerational transmission effects)

***All university students should do some voluntary work to help the local community.
To what extent do you agree or disagree?***

是否同意父母应该每年参加育儿和儿童发展课程。

同意:

1. 公民意识培养 (Civic consciousness cultivation) e.g. 社会责任认知(social responsibility awareness), 公共事务参与技能(public engagement skills), 社区问题诊断能力(community issue diagnosis)

2. 实践能力整合 (Practical competence integration) e.g. 跨学科知识应用(interdisciplinary knowledge application), 职场软技能预训(pre-professional soft skill training), 现实问题解决训练(real-world problem-solving drills)
3. 社会资本积累 (Social capital accumulation) e.g. 职业网络拓展(career network expansion), 多元文化理解深化(multicultural understanding enhancement), 社区信任建立(community trust building)

不同意：

1. 自主权保障 (Autonomy protection) e.g. 兴趣导向原则(interest-driven principle), 时间管理自主权(time management autonomy), 个人发展路径选择权(personal development path selection)
2. 形式主义风险 (Formalism risks) e.g. 服务时长虚报(service hour falsification), 表面化项目参与(superficial project engagement), 质量监控困难(quality supervision challenges)
3. 机会成本问题 (Opportunity cost issues) e.g. 学术研究时间挤压(academic research time compression), 专业实习机会损失(professional internship loss), 个人技能发展偏移(personal skill development deviation)

科技类

***Students in school or university learn more from classes of teachers than other resources (eg Internet or TV).
Do you agree or disagree?***

是否同意传统课堂比网络课堂更有效。

不同意：

1. 系统性指导 (Systematic guidance) e.g. 知识体系(knowledge system), 学习规划(learning plan)
2. 互动性学习 (Interactive learning) e.g. 即时反馈(instant feedback), 问题解答(Q&A sessions)
3. 专业性引导 (Professional guidance) e.g. 经验分享(experience sharing), 思维训练(critical thinking)

同意：

1. 信息获取便利 (Easy access to information) e.g. 资源丰富(rich resources), 随时学习(anytime learning)
2. 学习方式灵活 (Flexible learning methods) e.g. 自主节奏(self-paced), 重复学习(repeated learning)
3. 内容更新及时 (Timely content updates) e.g. 前沿知识(cutting-edge knowledge), 实时信息(real-time information)

***In some countries, the widespread use of the internet has given people more freedom to work or study at home, instead of travelling to and from work or school.
Do advantages of this development outweigh disadvantages?***

远程工作和学习的利弊。

优势：

1. 时间效率提升 (Time efficiency) e.g. 减少通勤(reduced commuting), 灵活安排(flexible scheduling)
2. 成本节约效益 (Cost reduction) e.g. 交通费用(transportation costs), 场地开支(facility expenses)
3. 生活质量改善 (Life quality improvement) e.g. 家庭时间(family time), 工作平衡(work-life balance)

弊端：

1. 社交互动受限 (Limited social interaction) e.g. 团队协作(teamwork), 人际关系(relationships)
2. 自我管理挑战 (Self-management challenges) e.g. 效率控制(productivity control), 注意力管理(attention management)
3. 发展机会影响 (Development impact) e.g. 晋升机会(promotion chances), 学习机会(learning opportunities)

二级重点

媒体类

In the past, knowledge was stored in books. Today, we store knowledge on the internet. Do the advantages of this development outweigh the disadvantages?

在互联网储存知识的利弊。

优势：

1. 知识民主化进程 (Knowledge democratization process) e.g. 全球即时访问(global instant access), 多语言互译系统(multilingual translation systems), 无障碍适配技术(accessibility adaptation technologies)
2. 动态更新机制 (Dynamic updating mechanisms) e.g. 实时纠错功能(real-time error correction), 版本迭代追踪(version iteration tracking), 众筹知识完善(crowdsourced knowledge refinement)
3. 多维知识呈现 (Multidimensional knowledge representation) e.g. 增强现实注解(AR annotations), 数据可视化交互(data visualization interaction), 跨媒体关联网络(cross-media correlation networks)

弊端：

1. 认知深度保障 (Cognitive depth assurance) e.g. 线性逻辑训练(linear logic training), 注意力持续培养(sustained attention cultivation), 批判性阅读空间(critical reading space)
2. 文化传承载体 (Cultural transmission vehicle) e.g. 触觉记忆强化(tactile memory enhancement), 版本学考证价值(textual criticism value), 历史版本保存(historical edition preservation)
3. 数字风险规避 (Digital risk avoidance) e.g. 信息过载屏蔽(information overload shielding), 数据篡改防护(data tampering prevention), 隐私泄露规避(privacy leakage avoidance)

Today, news plays an important role in people's lives, and news media are more influential than ever before.

Why is this the case?

Is this a positive or negative development?

新闻比以往更有影响力的原因和利弊。

原因：

1. 技术赋能传播 (Technology-enabled dissemination) e.g. 算法推荐系统(algorithmic recommendation systems), 即时推送通知(real-time push notifications), 多媒体叙事融合(multimedia narrative convergence)
2. 认知塑造机制 (Cognitive shaping mechanisms) e.g. 议程设置强化(agenda-setting intensification), 框架效应利用(framing effect utilization), 情感共鸣工程(emotional resonance engineering)
3. 社会需求演变 (Social demand evolution) e.g. 风险社会信息依赖(risk society information reliance), 身份认同构建工具(identity construction tool), 社交货币积累需求(social currency accumulation needs)

优势：

1. 公民意识提升 e.g. 反腐报道促进问责(anti-corruption reporting drives accountability), 应急信息拯救生命(emergency information saves lives), 科普内容破除谣言(science communication debunks myths)
2. 文化对话加速 e.g. 全球问题意识形成(global issue awareness building), 跨文化理解促进(cross-cultural understanding facilitation), 边缘群体发声平台(marginalized group amplification)

弊端：

1. 认知生态污染 e.g. 信息茧房强化(echo chamber reinforcement), 深度伪造威胁(deepfake threats), 注意力经济剥削(attention economy exploitation)
2. 社会结构冲击 e.g. 群体极化加剧(group polarization intensification), 民主程序干扰(democratic process interference), 心理健康危机诱发(mental health crisis induction)

*The tendency for news reports in the media to focus on problems and emergencies rather than on positive developments is harmful to the individual and society.
To what extent do you agree or disagree with this statement?*

是否同意新闻报道请先与关注问题和紧急事件而非积极发展。

同意：

1. 认知偏差加剧 (Cognitive bias amplification) e.g. 负面信息过载(negativity overload), 世界悲观认知(worldview pessimism), 安全感知扭曲(safety perception distortion)
2. 社会信任侵蚀 (Social trust erosion) e.g. 机构公信力下降(institutional credibility decline), 群体焦虑传播(mass anxiety dissemination), 社会资本损耗(social capital depletion)
3. 行为决策异化 (Behavioral decision alienation) e.g. 预防性储蓄激增(precautionary savings surge), 风险厌恶过度(excessive risk aversion), 公共参与衰退(civic engagement decline)

不同意：

1. 监督功能必要 (Oversight function necessity) e.g. 权力制衡机制(power check mechanisms), 系统性漏洞曝光(systemic vulnerability exposure), 改革压力传导(reform pressure transmission)
2. 危机意识建设 (Crisis awareness construction) e.g. 应急准备促进(emergency preparedness promotion), 集体记忆形成(collective memory formation), 社会韧性培养(social resilience cultivation)
3. 新闻价值标准 (News value criteria) e.g. 反常性报道原则(deviance reporting principle), 冲突叙事规律(conflict narrative norms), 注意力经济法则(attention economy rules)

城市建设类

*In many cities, planners have located shops, schools, offices, and homes in specific areas which may be widely separated from each other.
Do you think the advantages of this policy outweigh the disadvantages for city residents?*

将商店、学校、办公室和住宅安排在特定区域的利弊。

优势：

1. 专业效能提升 (Specialization efficiency enhancement) e.g. 商业集聚效应(commercial agglomeration effects), 教育资源共享(educational resource sharing), 产业协同优化(industrial collaboration optimization)
2. 环境质量保障 (Environmental quality assurance) e.g. 污染集中治理(pollution centralized management), 噪音敏感区分隔(noise-sensitive zoning), 生态廊道保护(ecological corridor preservation)
3. 基础设施集约 (Infrastructure intensification) e.g. 专业运输系统定制(specialized transport system customization), 管网维护效率提升(utility network maintenance efficiency), 应急响应专业化(emergency response specialization)

弊端：

1. 生活成本增加 (Living cost inflation) e.g. 通勤时间损耗(commuting time loss), 交通支出攀升(transportation expenditure surge), 时间贫困加剧(time poverty intensification)
2. 社区活力弱化 (Community vitality weakening) e.g. 街道眼效应消失(street eyes effect disappearance), 社交机会缩减(social interaction reduction), 24 小时活力缺失(round-the-clock vitality loss)
3. 空间正义挑战 (Spatial justice challenges) e.g. 职住失衡加剧(job-housing imbalance aggravation), 公共服务可达性差异(public service accessibility disparity), 弱势群体空间排斥(vulnerable group spatial exclusion)

In some cities today, public parks and open spaces are being changed into gardens where residents can grow their own fruits and vegetables.

Do you think the benefits of this development outweigh the disadvantages?

公共公园和开放空间改造成为居民种菜区域的利弊。

优势：

1. 社区韧性增强 (Community resilience enhancement) e.g. 食物里程缩短(food-mile reduction), 应急粮食储备(emergency food reserves), 本地品种保护(local cultivar preservation)
2. 生态效益提升 (Ecological benefits improvement) e.g. 雨水花园功能(rain garden functions), 传粉者走廊建设(pollinator corridor development), 有机废弃物循环(organic waste cycling)
3. 社会资本积累 (Social capital accumulation) e.g. 代际知识传递(intergenerational knowledge transfer), 邻里协作网络(neighborhood cooperation networks), 文化认同重塑(cultural identity reformation)

弊端：

1. 公共空间包容性 (Public space inclusivity) e.g. 无门槛休闲保障(barrier-free leisure access), 跨阶层社交促进(cross-class interaction facilitation), 游客便利设施(tourist amenities preservation)
2. 生物多样性维护 (Biodiversity conservation) e.g. 野生动植物栖息地(wildlife habitat protection), 生态演替空间(ecological succession space), 自然教育场域(nature education grounds)
3. 城市热岛缓解 (Urban heat island mitigation) e.g. 冷岛效应维持(cool island effect maintenance), 蒸散作用优化(evapotranspiration optimization), 硬质表面替代(hard surface replacement)

环境保护类

Some people say that what individuals do to protect the environment cannot make a difference. Others say that individuals can help to protect the environment. Discuss both these views and give your own opinion.

对比双方看法并给出自己的观点：一些人认为个人为保护环境所做的事情不会产生影响，其他人认为个人可以帮助保护环境。

观点一：

1. 系统性问题局限 (Systemic issue constraints) e.g. 工业碳排放占比(industrial carbon emission share), 基础设施锁定效应(infrastructure lock-in effect), 全球供应链复杂性(global supply chain complexity)
2. 行为回弹效应 (Behavioral rebound effects) e.g. 节能省钱的过度消费(energy-saving induced overconsumption), 道德许可心理(moral licensing psychology), 个体减排抵消机制(individual offset mechanisms)
3. 政策杠杆缺失 (Policy leverage absence) e.g. 碳定价不完善(imperfect carbon pricing), 监管执行缺口(regulatory enforcement gaps), 绿色技术投资不足(green tech underinvestment)

观点二：

1. 集体行动触发 (Collective action triggering) e.g. 社会规范重塑(social norm reshaping), 临界质量效应(tipping point effects), 公民运动传导(civic movement transmission)
2. 市场信号传递 (Market signal transmission) e.g. 绿色消费投票(voting with green dollars), 道德投资者压力(ethical investor pressure), 需求驱动创新(demand-driven innovation)
3. 认知范式转变 (Cognitive paradigm shift) e.g. 生态身份构建(ecological identity formation), 环境责任内化(environmental responsibility internalization), 代际影响强化(intergenerational influence amplification)

***Demand for gas and oil is increasing, so finding new sources in remote and untouched areas is necessary.
Do the advantages of this outweigh the disadvantages?***

在未开发地区寻找新的石油和天然气开采地的利弊。

优势：

1. 能源安全增强 (Energy security reinforcement) e.g. 战略储备扩容(strategic reserve expansion), 进口依赖度降低(import dependency reduction), 价格波动缓冲(price fluctuation cushioning)
2. 经济乘数效应 (Economic multiplier effects) e.g. 边疆地区开发(frontier region development), 能源走廊建设(energy corridor construction), 配套产业孵化(supporting industry incubation)
3. 技术突破机遇 (Technological breakthrough opportunities) e.g. 极地钻探技术(polar drilling tech), 深海开采机器人(deep-sea mining robots), 脆弱生态监测系统(fragile ecosystem monitoring)

弊端：

1. 不可逆生态损失 (Irreversible ecological loss) e.g. 原始碳汇破坏(primitive carbon sink destruction), 物种灭绝加速(species extinction acceleration), 冻土甲烷释放(permafrost methane release)
2. 气候承诺违背 (Climate commitment violation) e.g. 巴黎协定温度目标突破(Paris Agreement temperature overshoot), 碳预算超支(carbon budget overrun), 绿色转型迟滞(green transition delay)
3. 社会正义风险 (Social justice risks) e.g. 原住民权利侵害(indigenous rights infringement), 代际公平危机(intergenerational equity crisis), 环境难民产生(environmental refugee creation)

***Environmental protection is the responsibility of politicians, not individuals, as individuals can do too little.
To what extent do you agree or disagree?***

是否同意环境保护是政府而非个人的责任。

同意：

1. 系统性变革能力 (Systemic change capacity) e.g. 碳定价机制推行(carbon pricing implementation), 绿色基建投资(green infrastructure investment), 产业政策重构(industrial policy restructuring)
2. 全球协同权威 (Global coordination authority) e.g. 巴黎协定履约机制(Paris Agreement compliance mechanisms), 跨境污染追责(cross-border pollution accountability), 气候融资分配(climate finance allocation)
3. 执法监督权力 (Enforcement supervision power) e.g. 环境犯罪量刑指南(environmental crime sentencing guidelines), 企业 ESG 强制披露(ESG mandatory disclosure), 生态损害终身追责(ecological damage lifelong accountability)

不同意：

1. 需求端驱动作用 (Demand-side driving force) e.g. 可持续消费转型(sustainable consumption transition), 道德投资者运动(ethical investor movement), 公民科学参与(citizen science engagement)
2. 社会规范塑造力 (Social norm shaping power) e.g. 低碳生活示范效应(low-carbon lifestyle demonstration), 环境教育代际传递(intergenerational environmental education), 社区环保实践扩散 (community eco-practice diffusion)
3. 技术创新源泉 (Technological innovation source) e.g. 开源环保技术共享(open-source green tech sharing), 众包环境监测(crowdsourced environmental monitoring), 零废弃生活方式创新(zero-waste lifestyle innovation)

三级重点

政府类

*Some people think that too much money has been spent looking after and repairing old buildings, so we should knock down old buildings and build modern ones instead.
To what extent do you agree or disagree?*

是否同意政府应该拆除旧建筑并建造现代建筑。

同意：

1. 城市更新需求 (Urban renewal necessity) e.g. 抗震标准升级(seismic standard upgrading), 智能基础设施整合(smart infrastructure integration), 空间利用效率提升(space utilization optimization)
2. 经济活力激发 (Economic vitality stimulation) e.g. 土地价值释放(land value realization), 新兴产业载体培育(new industry carrier incubation), 税收基础扩大(tax base expansion)
3. 可持续发展推动 (Sustainable development promotion) e.g. 绿色建筑标准实施(green building standards implementation), 能源效率提升(energy efficiency enhancement), 碳足迹削减(carbon footprint reduction)

不同意：

1. 文化基因延续 (Cultural DNA preservation) e.g. 建筑技艺传承(architectural craftsmanship inheritance), 集体记忆载体(collective memory vessel), 城市身份标识(urban identity marker)
2. 生态智慧保留 (Ecological wisdom retention) e.g. 被动式设计应用(passive design application), 本土材料循环(local material cycling), 微气候调节功能(microclimate regulation)
3. 经济效益潜力 (Economic potential realization) e.g. 遗产旅游开发(heritage tourism development), 创意产业孵化(creative industry incubation), 资产增值保值(property value appreciation)

*Some people say in order to prevent illness and disease, the government should focus on reducing environmental pollution and housing problems.
To what extent do you agree or disagree?*

是否同意政府应该更专注于减少环境污染和住房问题。

同意：

1. 健康社会决定因素干预 (Social determinants of health intervention) e.g. 空气污染相关疾病成本(air pollution-related disease costs), 住房拥挤导致传染病传播(overcrowding-induced infection spread), 环境正义促进健康公平(environmental justice for health equity)
2. 预防医学效益最大化 (Preventive medicine benefit maximization) e.g. 每投入 1 美元环境治理可节省 4 美元医疗支出(\$4 healthcare savings per \$1 environmental investment), 早期干预成本效益比(early intervention cost-effectiveness ratio), 社会投资回报分析(social return on investment analysis)
3. 系统风险管理优势 (Systemic risk management superiority) e.g. 气候变化健康影响缓解(climate change health impact mitigation), 城市热岛效应应对(urban heat island adaptation), 灾害韧性社区建设(disaster-resilient community development)

不同意：

1. 多维度健康影响因素 (Multidimensional health determinants) e.g. 个体行为选择(individual behavioral choices), 遗传因素影响(genetic predisposition), 医疗服务质量(healthcare service quality)
2. 政策执行现实挑战 (Policy implementation challenges) e.g. 工业转型经济成本(industrial transition economic costs), 住房改造财政压力(housing renovation fiscal pressure), 跨部门协调难度(interdepartmental coordination complexity)
3. 替代性健康促进策略 (Alternative health promotion strategies) e.g. 全民健康素养提升(national health literacy enhancement), 精准预防医学发展(precision preventive medicine advancement), 数字健康监测系统(digital health monitoring systems)

In many countries, a few people earn extremely high salaries. Some people say that this is a good thing for the country. Others say that governments should not allow salaries above a certain level.

Discuss both these views and give your own opinion.

对比双方看法并给出自己观点：一些人认为少数人获得极高薪资对国家有利，其他人认为政府不应该允许薪资超过某个水平。

观点一：

1. 人才引力效应 (Talent attraction effect) e.g. 全球顶尖人才虹吸(global talent siphoning), 创新集群形成(innovation cluster formation), 知识溢出红利(knowledge spillover dividends)
2. 经济激励功能 (Economic incentive function) e.g. 企业家精神激发(entrepreneurship stimulation), 风险承担补偿(risk-taking compensation), 生产力溢价分配(productivity premium allocation)
3. 慈善资源积累 (Philanthropic resource accumulation) e.g. 比尔盖茨式疫苗研发资助(Gates-style vaccine funding), 教育捐赠基金(educational endowments), 社会创新孵化器(social innovation incubators)

观点二：

1. 社会凝聚力保障 (Social cohesion assurance) e.g. 基尼系数警戒线(Gini coefficient alert threshold), 相对剥夺感缓解(relative deprivation mitigation), 公共信任维护(public trust preservation)
2. 资源错配矫正 (Resource allocation correction) e.g. 金融业过度膨胀抑制(financial sector overexpansion containment), 实体经济人才回流(real economy talent retention), 公共服务吸引力增强(public service appeal improvement)
3. 可持续消费引导 (Sustainable consumption guidance) e.g. 炫耀性消费抑制(conspicuous consumption restraint), 碳足迹公平分配(carbon footprint equity), 代际财富平衡(intergenerational wealth balance)

***Some people say that it is important for governments to pay for large pieces of art, for example, sculptures, to be put on public display in outdoor places.
To what extent do you agree or disagree?***

是否同意政府应该在户外公共场所建设大型艺术品。

同意：

1. 城市身份塑造 (Urban identity shaping) e.g. 地标性记忆点创建(landmark memory imprinting), 文化基因可视化(cultural DNA visualization), 场所精神强化(genius loci enhancement)
2. 社会资本培育 (Social capital cultivation) e.g. 公共空间活化(public space activation), 跨阶层对话促进(cross-class dialogue facilitation), 社区记忆共同体构建(community memory community building)
3. 创意经济刺激 (Creative economy stimulation) e.g. 艺术旅游吸引力(art tourism attraction), 本土艺术家扶持(local artist empowerment), 夜间经济增值(night economy value addition)

不同意：

1. 资源分配优先级 (Resource allocation priority) e.g. 基本服务缺口对比(basic service gap comparison), 民生项目机会成本(livelihood project opportunity cost), 艺术精英主义批评(art elitism critique)
2. 维护管理挑战 (Maintenance challenges) e.g. 修复成本指数增长(restoration cost inflation), 技术性损毁风险(technical degradation risks), 公共财产保护困境(public property protection dilemma)
3. 审美价值争议 (Aesthetic value disputes) e.g. 代际审美冲突(intergenerational taste conflicts), 文化霸权隐忧(cultural hegemony concerns), 艺术民主化诉求(art democratization demands)

Some people think it is better for one single legal system throughout the world. Others say countries should have their own laws. Discuss both views and give your opinion.

对比双方看法并给出自己的观点：一些人认为世界应该采用单一法律体系，其他人认为国家应该有自己的法律。

观点一：

1. 跨国治理效率提升 e.g. 跨境犯罪协同打击(cross-border crime collaboration), 商业争议统一解决(unified commercial dispute resolution), 人权保障标准化(human rights standardization)
2. 全球化问题应对 e.g. 气候变化集体行动(climate change collective action), 数字空间治理(cyberspace governance), 流行病防控协作(epidemic control coordination)
3. 文明冲突缓解 e.g. 价值观基准线建立(value baseline establishment), 文化误解消减(cultural misunderstanding reduction), 难民权益保障(refugee rights protection)

观点二:

1. 文化适配必要性 e.g. 宗教传统兼容(religious tradition compatibility), 社会习俗尊重(social custom respect), 历史经验传承(historical experience inheritance)
2. 主权独立保障 e.g. 司法终审权(judicial final adjudication power), 立法自主权(legislative autonomy), 执法体系完整性(law enforcement integrity)
3. 渐进改革优势 e.g. 试点立法容错机制(pilot legislation error-tolerance), 法律本土化调适(localized legal adaptation), 社会接受度培育(social acceptance cultivation)

传统文化类

Some people believe that traditional festivals and celebrations are losing their cultural significance due to modern lifestyles and globalization. Others argue that these events are still important for preserving cultural identity.

Discuss both views and give your own opinion.

对比双方看法并给出自己的观点：一些人认为传统节日和庆祝活动正在失去其文化意义，其他人认为这些活动对保护文化身份仍然重要。

观点一：

1. 文化符号空心化 (Cultural symbol hollowing)

e.g. 春节红包数字化(red envelope digitization), 端午粽子工业化(dumpling industrialization), 中秋月饼过度商业化(mooncake hyper-commercialization)

2. 仪式意义消解 (Ritual significance erosion)

e.g. 清明云祭扫(cloud tomb-sweeping), 婚俗快餐化(wedding ritual fast-foodization), 成人礼形式化(coming-of-age ceremony formalization)

3. 代际传承断层 (Intergenerational transmission fracture)

e.g. 非遗传承人老龄化(intangible heritage inheritor aging), 方言使用衰退(dialect usage decline), 传统技艺失传危机(craftsmanship extinction crisis)

观点二：

1. 创新性转化实践 (Innovative transformation practices)

e.g. 汉服文艺复兴(Hanfu renaissance), 国潮文创产品(sinicization trend cultural products), 数字民俗博物馆(digital folklore museums)

2. 全球化反向刺激 (Globalization reverse stimulation)

e.g. 孔子学院文化输出(Confucius Institute cultural export), 春节成为国际节日(Spring Festival internationalization), 二十四节气申遗成功(24 solar terms UNESCO recognition)

3. 身份焦虑治愈功能 (Identity anxiety healing function)

e.g. 乡愁经济(nostalgia economy), 文化根源探寻热(cultural root-seeking trend), 传统节日精神疗愈
(traditional festival spiritual healing)
