

不小心弄坏东西

回答

Describe a time you broke something by accident. 描述一次你不小心弄坏东西的经历。

A: 1. **思路:** 介绍事件发生的时间、地点和经过，用简单的语言描述。

One day, I was helping my mom in the kitchen. I was trying to put a `plate` into the cupboard. But I was not careful enough, and the `plate` slipped from my hand. It fell on the floor and `broke` into many `small pieces`.

有一天，我在厨房帮妈妈。我正要把一个盘子放进碗柜里。但我不够小心，盘子从我手中滑落。它掉到地上，摔成了很多小碎片。

2. **思路:** 描述自己当时的感受以及妈妈的反应，体现事件对情绪的影响。

I felt very **sad** and **sorry** because I made a mistake. My mom saw it. I thought she would **get angry**, but she didn't. Instead, she told me it was **okay** and that **accidents happen** sometimes.

我感到非常难过和抱歉，因为我犯了错误。妈妈看到了。我以为她会生气，但她没有。相反，她告诉我没关系，有时候意外就是会发生。

3. **思路:** 描述后续处理和从这次经历中学到的教训，给出总结。

She helped me **clean up** the **broken pieces** carefully. We wanted to make sure no one would **get hurt**. From that day, I learned to be **more careful** when I do things, especially in the kitchen. It was a simple accident, but it taught me a good lesson.

她帮我小心地清理了碎裂的碎片。我们想确保没有人会受伤。从那天起，我学会了做事情要更小心，尤其是在厨房里。那是一个简单的意外，但它给了我一个很好的教训。
